A photograph of three people (two men and one woman) sitting on a wooden dock by a lake, performing a side-body stretch. They are all wearing athletic wear. The background shows a calm lake, a line of trees, and a clear sky. The scene is lit with soft, warm light, suggesting early morning or late afternoon. In the foreground, there are some green reeds or grasses slightly out of focus.

## PHYSICAL ACTIVITY

Physical activity is one of the 5 pillars of the Vichy Method, it is indispensable for good health, fitness and wellness. At the Vichy Célestins Spa Hôtel we do all we can go get you moving.

With individual and personalised sports coaching, our coaches accompany and encourage you by determining, with you, a programme adapted to your capabilities for use during your stay and when you return home.

With our Aquasport sessions, in a naturally hot thermal water pool, you will gain extra benefits to tone and mineralise your body.

The cardio-training area and the sessions in the fitness room are free of charge during your stay. All you need is the appropriate sports clothing.

# VICHY THERMAL WATERS

## SOURCE OF GOOD HEALTH & WELLBEING

### THROUGH OVER 2,000 YEARS OF THERMALISM

The Gallo-Romans were the first to discover the therapeutic virtues of the Vichy thermal springs surging out of the earth at the ideal temperature of 40°C, pushed naturally by the build-up of natural carbon dioxide gas. It was in 1676, that Madame de Sévigné famously wrote about the benefits of Vichy Thermal Spa water, and drew the attention of the French Court. The Vichy spa water cured her rheumatism « The waters here are certainly miraculous » and they even provided her with beauty care « The water makes my skin soft and matt ».

In the 19th century, the Vichy thermal spa resort took on an international dimension with the influence of the French Emperor, Napoleon III. He gave the management to a unique actor, the Compagnie de Vichy, founded in 1862. Thermal spa centres, opera house, golf course, parks and a casino were soon created in the town. The reputation of the Vichy thermal spa resort has earned it the title of « the Queen of Spa Towns ».

### ORIGINS OF VICHY'S MINERAL AND THERMAL WATERS, CALMING AND MINERALISING

Rainwater seeps slowly through the microscopic cracks in the volcanoes of the Auvergne. At a depth of 4,000 metres it comes in contact with the magma and starts its journey through a unique variety of volcanic rocks. The water is heated, and becomes charged with carbon dioxide, minerals and trace elements:

- HCO<sup>3-</sup>** Hydrogenocarbonates (*maintaining acid-base regulation*)
- Ks** Sulphur (*detoxifying*)
- F** Fluor & **Mn** Manganese (*antioxydants*)
- Li** Lithium & **Sr** Strontium (*anti-inflammatory*)
- B** Boron (*healing*)
- Ca** Calcium (*protecting*)
- Fe** Iron (*helps transport oxygen to cells in the body*)
- Cu** Silicium (*regeneration*)
- K** Potassium (*hydrating*)
- ...

Naturally propelled to the Earth's surface, nine hot water springs discharge their water in the Vichy area.

## 💧 « SIGNATURE » SPA CARE TREATMENTS WITH VICHY THERMAL WATER

### EXPERIENCE THE RITUAL OF « SIGNATURE » CARE TREATMENTS WITH VICHY THERMAL WATER

- The Hydromassage bath with Vichy thermal water, at 35°C, ensures optimal relaxation and favours the absorption through the skin of the minerals and trace elements which are naturally contained in the water.
- A Phyto-mineral mud wrap with Vichy water helps soothe joint pain.
- The Vichy Thermal Water shower and 4 hand massage « The ORIGINAL since 1896 » is made under a fine rain of warm thermal water, by two perfectly synchronised practitioners, for an unforgettable experience of wellness.

VICHY  
LABORATOIRES

L'Institut

## A SOURCE OF STRENGTH FOR YOUR SKIN

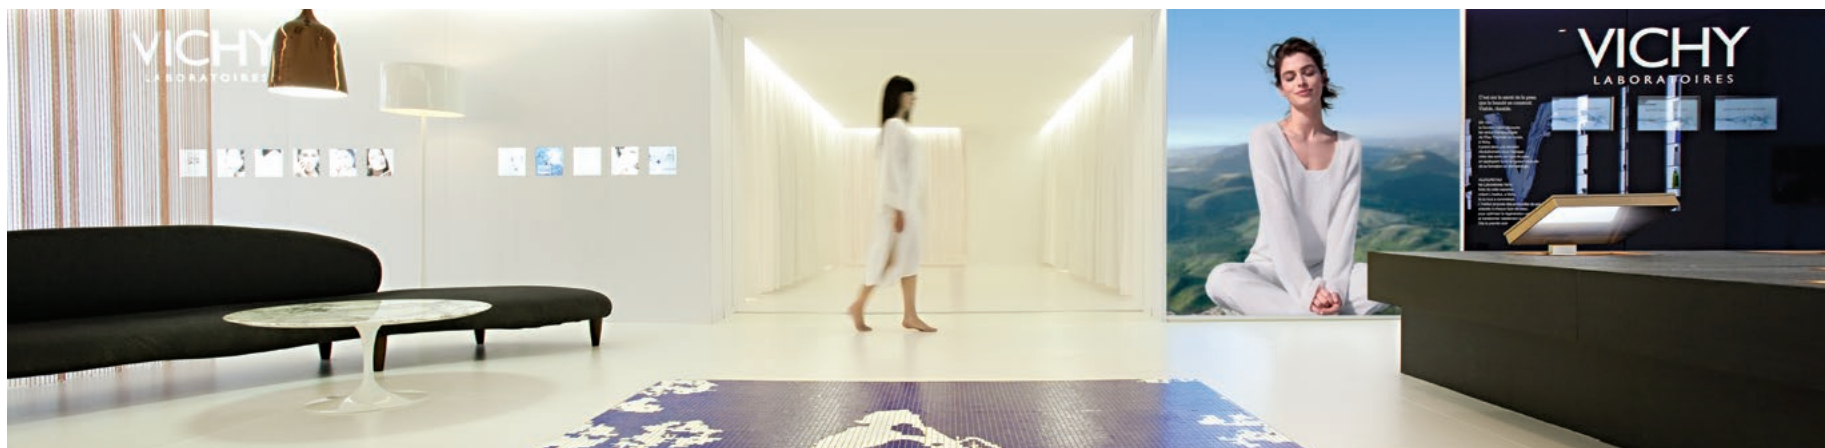

### THE POWER OF VICHY MINERALISING WATER FOR A STRONGER SKIN, RADIANT WITH HEALTH

Since their creation in 1931, the Vichy Laboratories have been supporting the health and beauty of your skin. At the heart of their products is Vichy Thermal mineralising water. Born in the volcanoes of France and enriched with 15 essential minerals as it follows the same path as thousands of years ago, through an extraordinary variety of different rocks. This unique water strengthens your skin against the aggressions of everyday life. At the Institute of Vichy Laboratories, located not far from the thermal spa centre, this mineralised water finds its full expression. Incorporated into the heart of Vichy products with strong active ingredients inspired by nature, the water is used in spa care treatment protocols developed and validated by experts, to transform your skin, rebalancing, fortifying and regenerating.

### YOUR CUBICLE SPA CARE TREATMENT, METAMORPHOSING YOUR SKIN: WATER, MASSAGE, ACTIVE INGREDIENTS

Each ritual, defined based on your Personalised Skin Diagnosis, takes into consideration your lifestyle, sensations and feelings, and transforms your skin step by step. The effects are visible from the first treatment. Four cubicles, each with a bath and bed, are at your disposal. Feel the mineralising freshness of the fine spray of Vichy Water, the delight and pleasure of textures of perfectly dosed active ingredients. Feel your skin becoming plumped up, your face and body remodelled under the expert hands of your Skincare specialist. A moment of pure bliss which covers the face and body, calmed and soothed by a mineral music.

## PERSONALISED ADVICE AND SUPPORT FOR A SKIN SUSTAINABLY MORE BEAUTIFUL AND STRONG

To prolong the benefits of your care treatment, your Vichy Skincare specialist will provide you with your Personalised Programme of Vichy Care Treatments with your ritual of products, self-massage movements, and advice for a healthy skin. Our textures bar is also available to you to experience the physical sensations of the textures of our care treatments and discover the natural active ingredients which inspire each range of our care treatments. Everything is done to continue to support you, even after your stay has ended. To remind you each day of your feelings and sensations, to strengthen your skin. Men also have a programme specially designed for them! Let us guide you. We will support you and give you advice.

We want you to fully enjoy and appreciate this renewal.

*The full range of Vichy Laboratories products are on sale at the Institute.*

## THE EXPERTISE OF PROFESSIONAL SKINCARE TREATMENTS

### THE N°1 IN ANTIOXIDANTS AND COSMECEUTICALS

SkinCeuticals, the Number 1 Antioxidant Skin Care Line with Skincare on the frontier between cosmetics and pharmaceutical products, proposes targeted facial skincare treatments combining highly efficient in-clinic treatments and sensorial experience.

SkinCeuticals proposes a personalised expert skin diagnosis using a dermatology tool, the SkinScope LED. After analysing your skin profile we advise on the best products to help achieve your skincare goals.

#### THE SKINCEUTICALS PHILOSOPHY IS BASED ON 3 PRINCIPLES:

**PREVENT** the visible signs of premature ageing by using antioxidants to neutralise the free radicals which cause oxidation, leading to skin damage.

**CORRECT** the visible signs of ageing and restore a healthier and more youthful appearance with pure, highly concentrated active ingredients.

**PROTECT** healthy skin against the harmful effects of UV by using solar filters on a daily basis.

« The SkinCeuticals products used in our beauty care treatments are recommended by dermatologists and cosmetic surgeons. They are professional high-performance products. » SkinCeuticals care treatments prevent skin ageing, optimise the beauty and health of the skin and keep it looking young and fresh. Each care treatment uses specific anti-ageing modelling techniques and formulas, adapted to all skin types, even the most sensitive.

*The SkinCeuticals range of products is on sale in our Beauty Care Centre.*

## NUTRICOSMETICS

### NUTRITION AT THE HEART OF PREVENTIVE HEALTHCARE

#### THE GUARANTEE OF EXTREMELY PERSONALISED CARE TREATMENTS

Based on the fact that each individual has unique needs, micronutrition helps to identify any excess or deficiency in terms of micronutrients which are necessary for the equilibrium and proper functioning of the body. OLIGOSCAN technology provides a precise diagnosis of these needs, and the D-LAB MICRONUTRITION range of products was developed to respond to such needs in a very precise way.

#### OLIGOSCAN : AN INNOVATIVE TECHNOLOGY

The efficiency of this measuring device has been proved scientifically. It can rapidly evaluate levels of minerals, trace elements, oxidative stress and heavy metals and establish a supplementation to serenely preserve your health capital, reinforce defences and naturally ensure longevity.

#### D-LAB : THE SPECIALIST IN MICRONUTRITION

Exclusively made in France, the micronutrition range is made up of 14 ultra-targeted formulas, which activate the major mechanisms of cell protection, repair, and regeneration, by delivering a precise dose of active ingredients of exceptional quality, with the highest rate of bioavailability. Hepatic Detox - Heavy Metal Detox - Joints - Circulation - Probiotics - Omegas - Sleep - Magnesium - Zinc - Selenium - Chromium - Iodine,...

## WITH VICHY CÉLESTINS MINERAL WATER

Orchestrated by the Chef Christophe Vauthier, and working closely with a dietician, our « Health, Taste and Pleasure » cuisine using Vichy Célestins mineral water, plays with authentic flavours and savours to produce dishes which are not only creative, but also appetising and light. The VICHY CÉLESTINS SPA HOTEL received the ESPA prize for culinary innovation in 2014. The recipes are controlled using low temperature cooking, with reduced salt, due to the bicarbonate present in the Vichy Célestins mineral water. To increase the flavour of your meal and the consumption of mineral salts, while at the same time reducing the use of table salt by 40%, for each table in the Restaurant we provide a salt mill containing Vichy Thermal Spa Water mineral salts.
